Some investors tend to focus on the more traditional aspects of the impact of inflation including rising interest rates and the intention of the FOMC to raise rates to "normalize" rate levels We believe there is another impact of reflation that investors may be overlooking: the …

Waking up to reflation

further to run Reflation is a natural part of any economic recovery: both a self-reinforcing dynamic of higher wages feeding mildly higher inflation and stronger incomes supporting demand and nominal growth That it took six to seven years after the Great Recession to take root shows how households and companies needed to repair balance

The Great Reversion - ClearBridge Investments

Two main beliefs that are keeping bond investors from pricing in any reflation or rise in interest rates are likely to shift next year One is that technology, automation, robots and globalization will continue to suppress wage growth Central bankers frame this debate in the …

Asia Insight

through this, any great reflation benefited other emerging markets Once Asia had taken the medicine prescribed by the IMF, and gone through a deflationary period, it emerged as a region hungry for growth Now, think about it: Couldn't we say much the same about the US? The recovery from its own financial crisis has been slow but steady

A Secular Turning Point: The End of the Great U.S. Cycle

reflation, bitter partisanship and large deficits Investors seem convinced that nothing really bad can happen to US assets due to the countrys status as a global safe haven ut the experience of the late 1960s and early 1970s shows that the US currency and stock market can become risky assets in periods of relative economic decline

MARKET INSIGHTS New year, new challenges

New year, new challenges What will 2017 bring for global investors? December 2016 IN BRIEF • 2016 will be remembered for political upsets, with the UK vote to leave the European Union and the election of Donald Trump highlighting voter dissatisfaction with mainstream politicians and parties For investors, it will probably also go down

ASIA PACIFIC STRATEGY REPORT 2017 - Northern Trust

ASIA PACIFIC STRATEGY REPORT 2017 KEY UNDERSTANDINGS FOR 2017 REGIONAL Inflation or rotation? The great 'reflation-rotation' is as much about positioning as about the sustainability of global inflation and the correction of excessive 'lower for longer' positioning of the past five years (and therefore the direction of global
